

LIFARS USE CASES

INDUSTRY: New York Local Bank.

SCENARIO: A change in the external network (perimeter) triggered the necessity of a full Vulnerability Analysis to identify possible entry points and achieve a mature external security posture.

LIFARS SERVICES: Vulnerability Assessment

LIFARS provided the following services to address this rapidly growing client's security and compliance needs:

- In-depth Vulnerability Assessment by pragmatically assessing the External Network (perimeter) to identify risks and vulnerabilities that could be exploited.
- LIFARS methodology applied multiple interactions of Vulnerability Analysis to identify and remove false-positives to bring the most value to the company.
- Provided detail technical description of the risks identified during the assessment along with remediation steps.
- Assisted the client through remediation process and provided a post-remediation assessment to ensure adequate security posture.

RESULTS: A strong secure posture by identifying and fixing vulnerabilities and misconfiguration, and thereby, fending off cyber attackers.
